

Outline

- Filters & Segments
- Event Tracking
- Goal Tracking
- Custom Reports & Dashboards

We have a lot to get through, please hold Questions to the end.

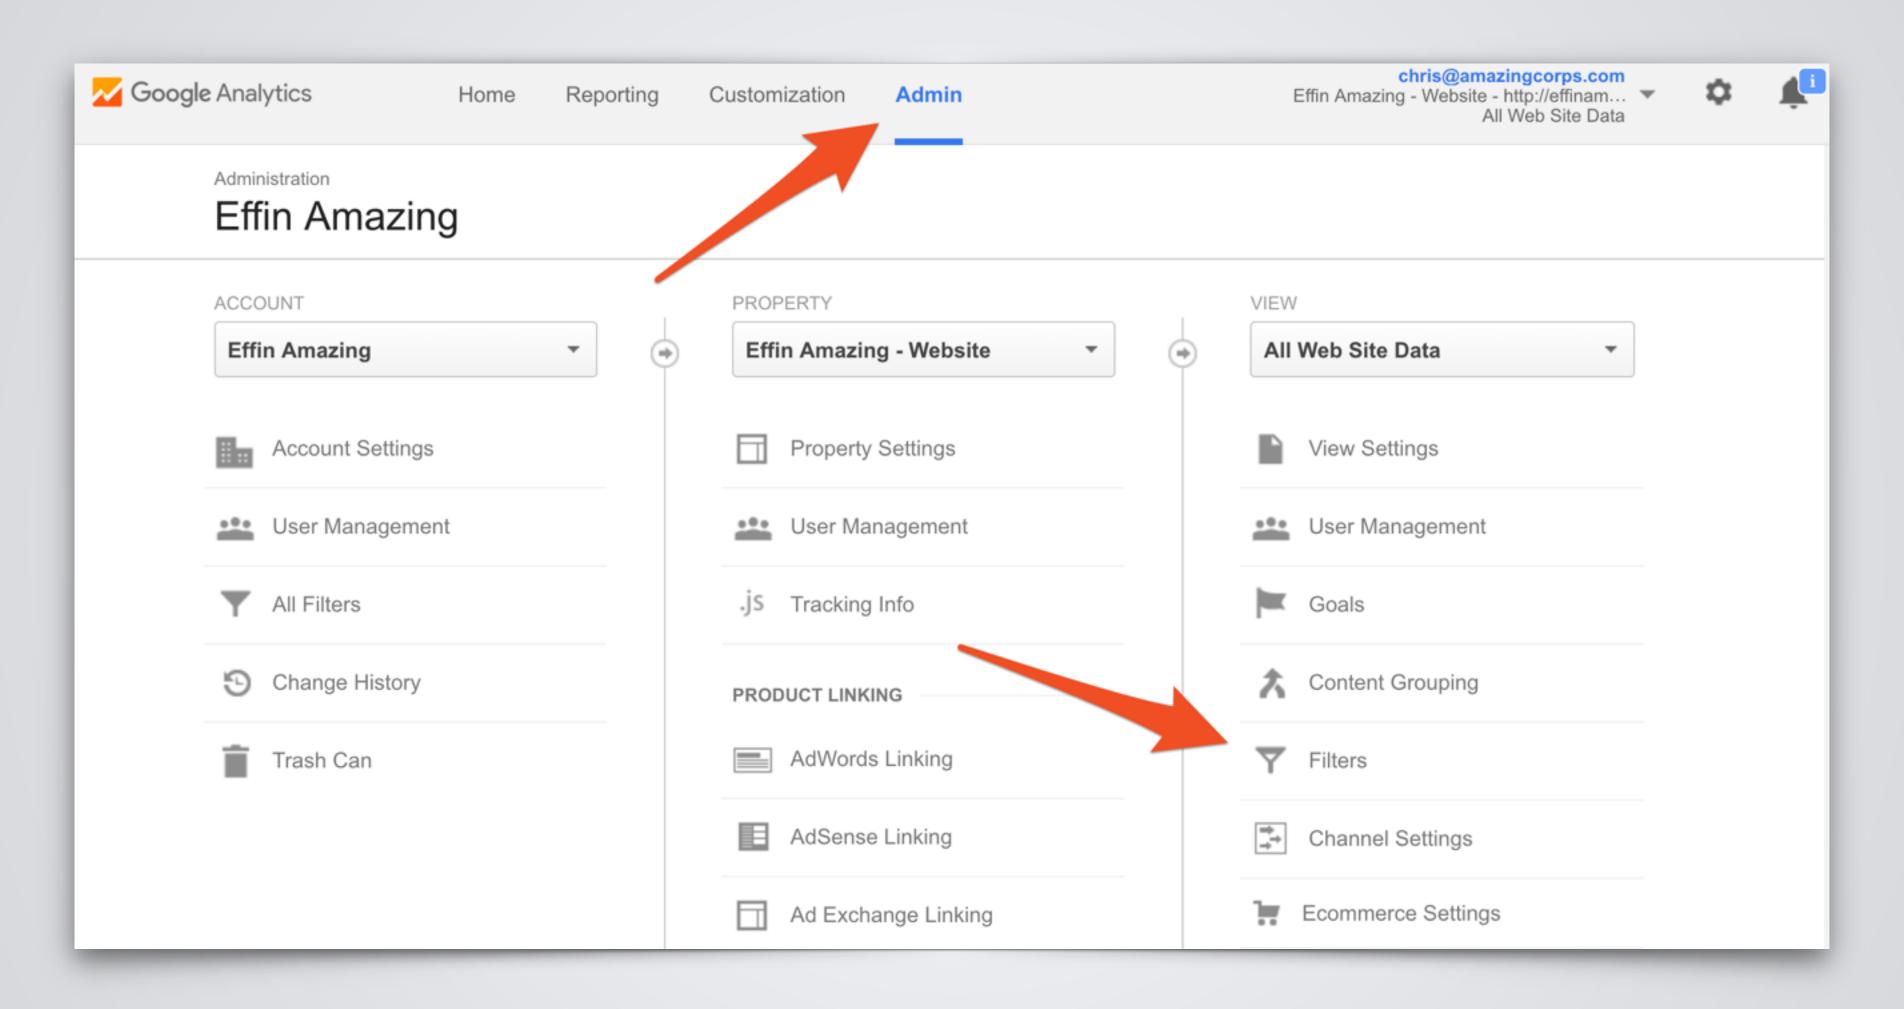

FILTERS & ADVANCED SEGMENTS

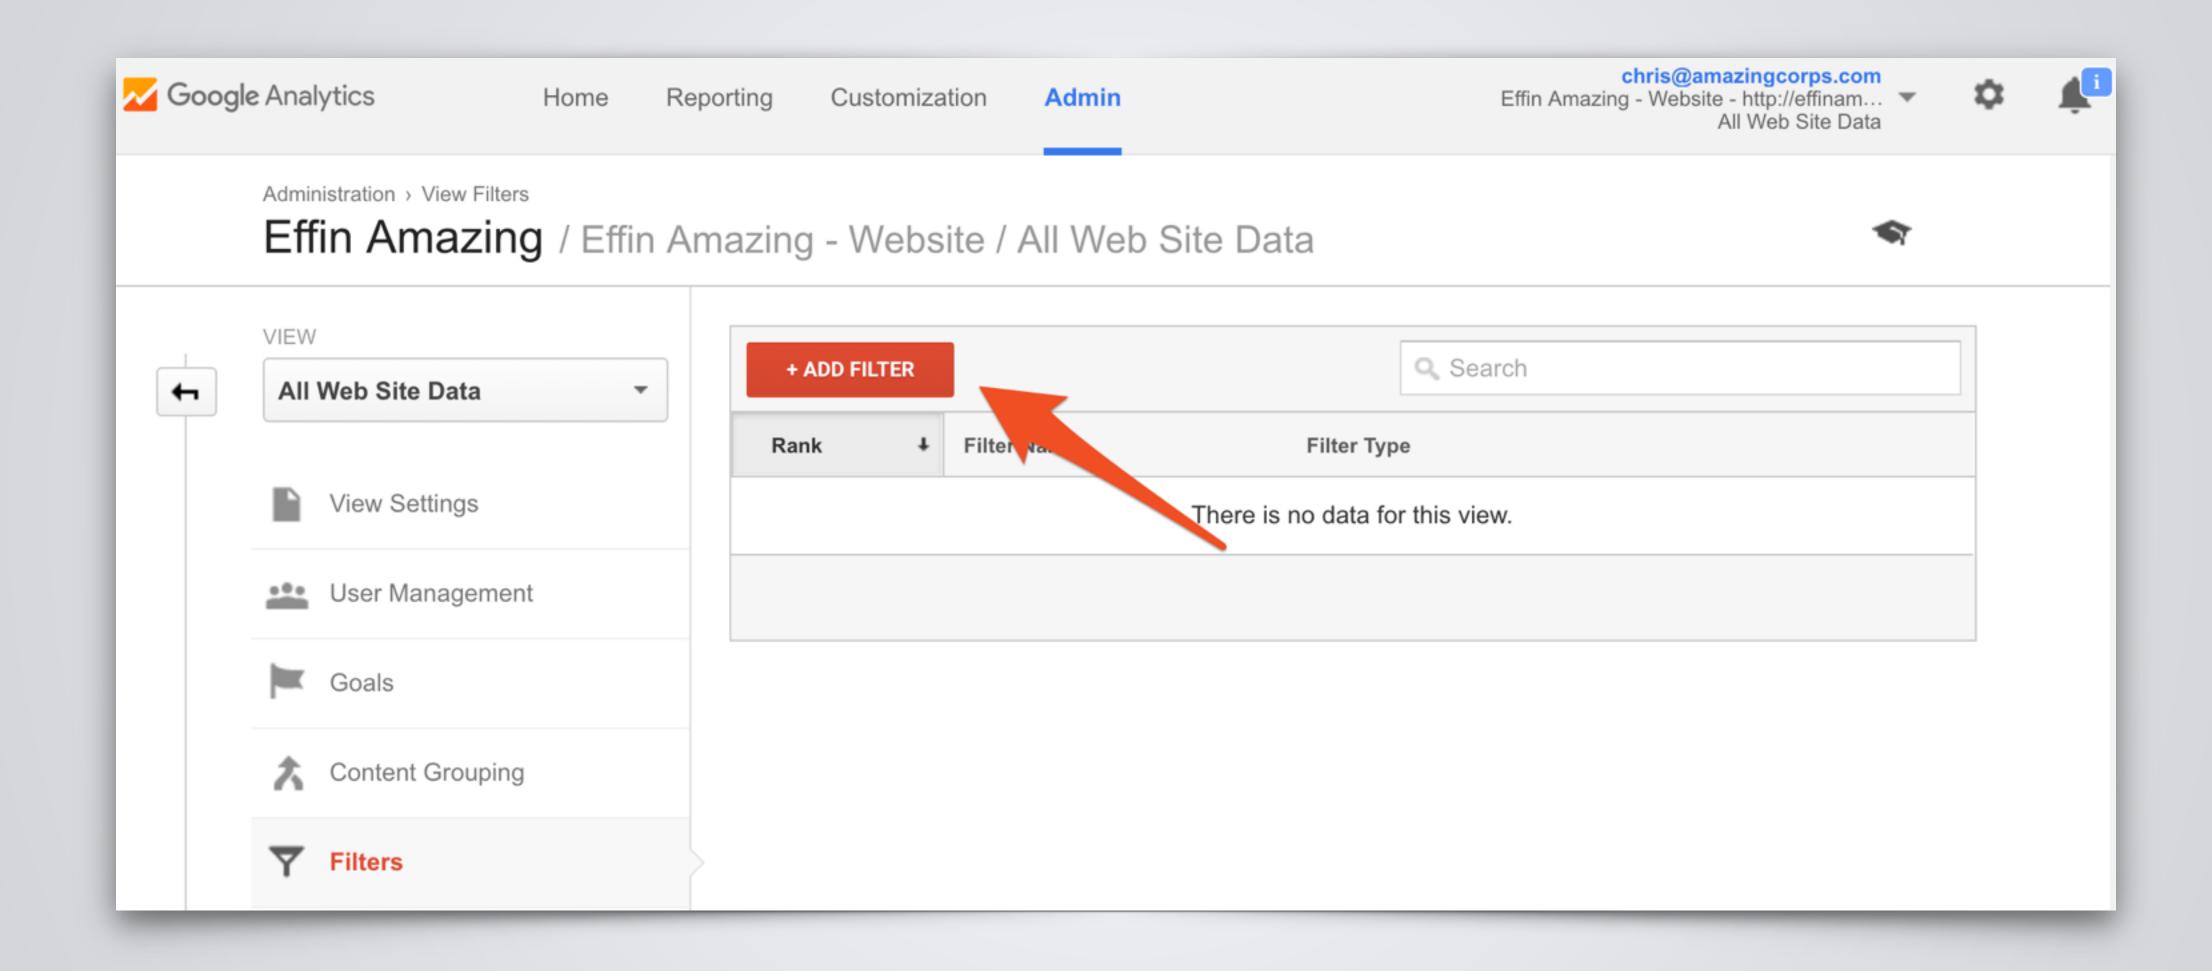

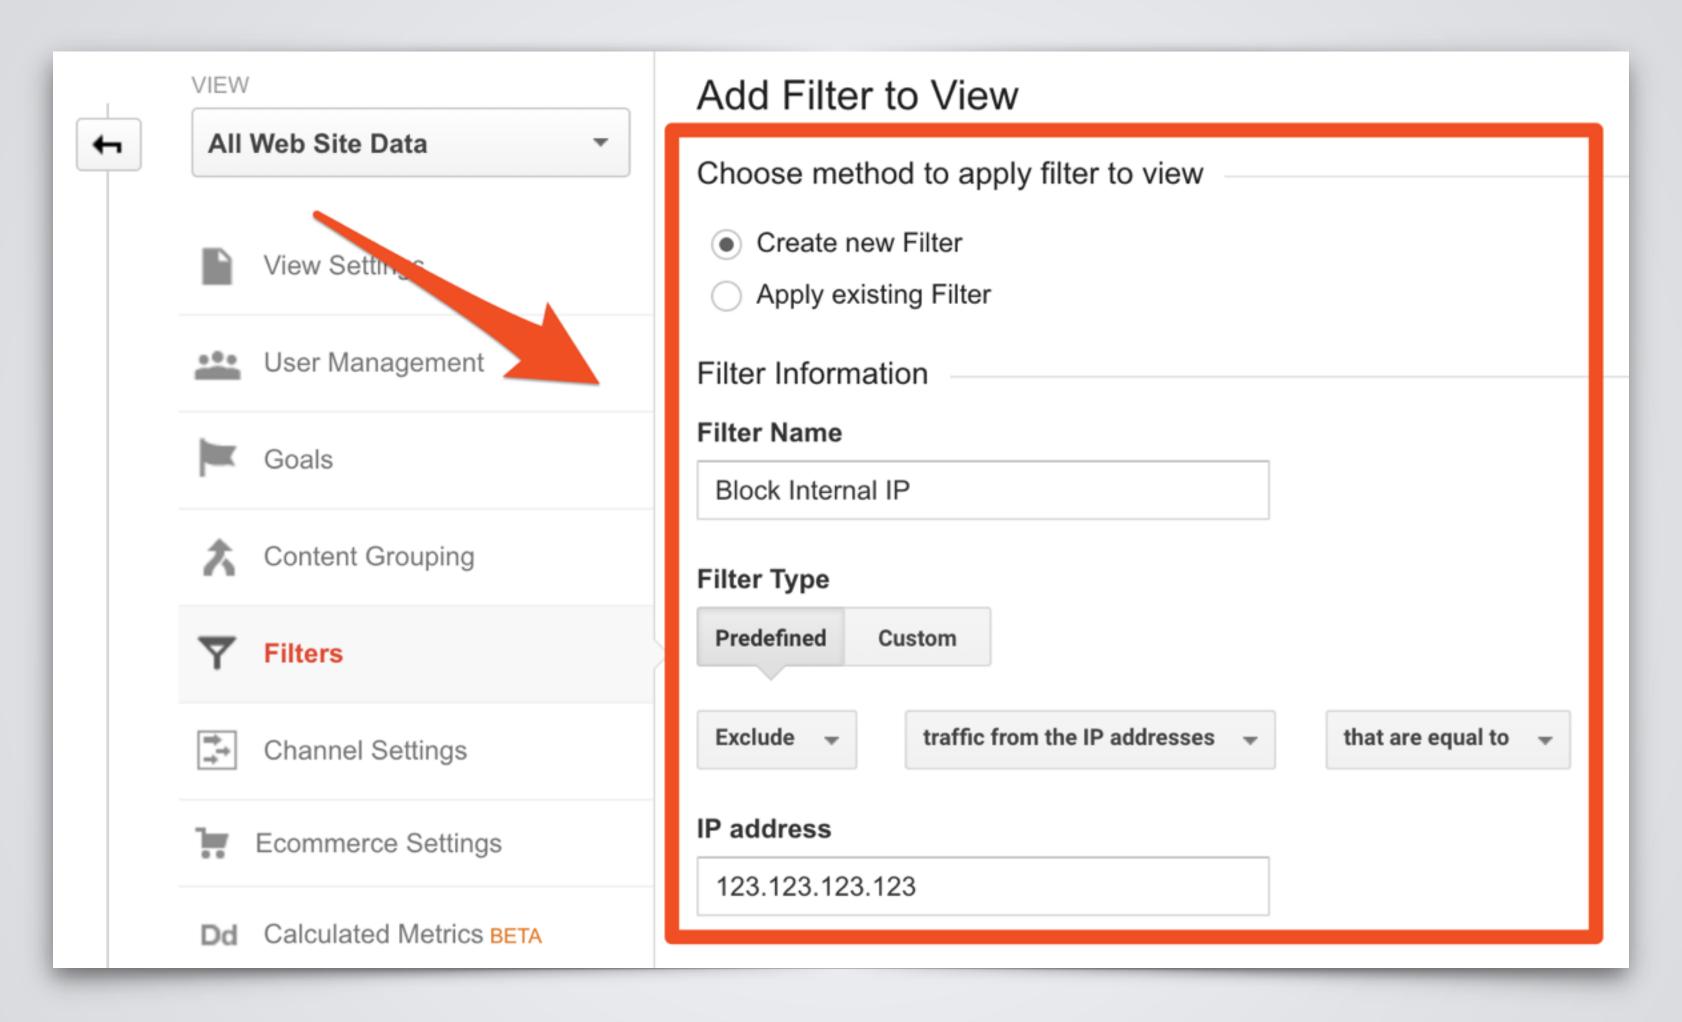

Filter vs Advanced Segments

Filter - A filter is applied to a profile view and is permanent. This stops the data from ever being saved into a profile.

Advanced Segment - An advanced segment allows you to isolate similar visitors into groups. These can be applied to any report without making permanent changes to your data.

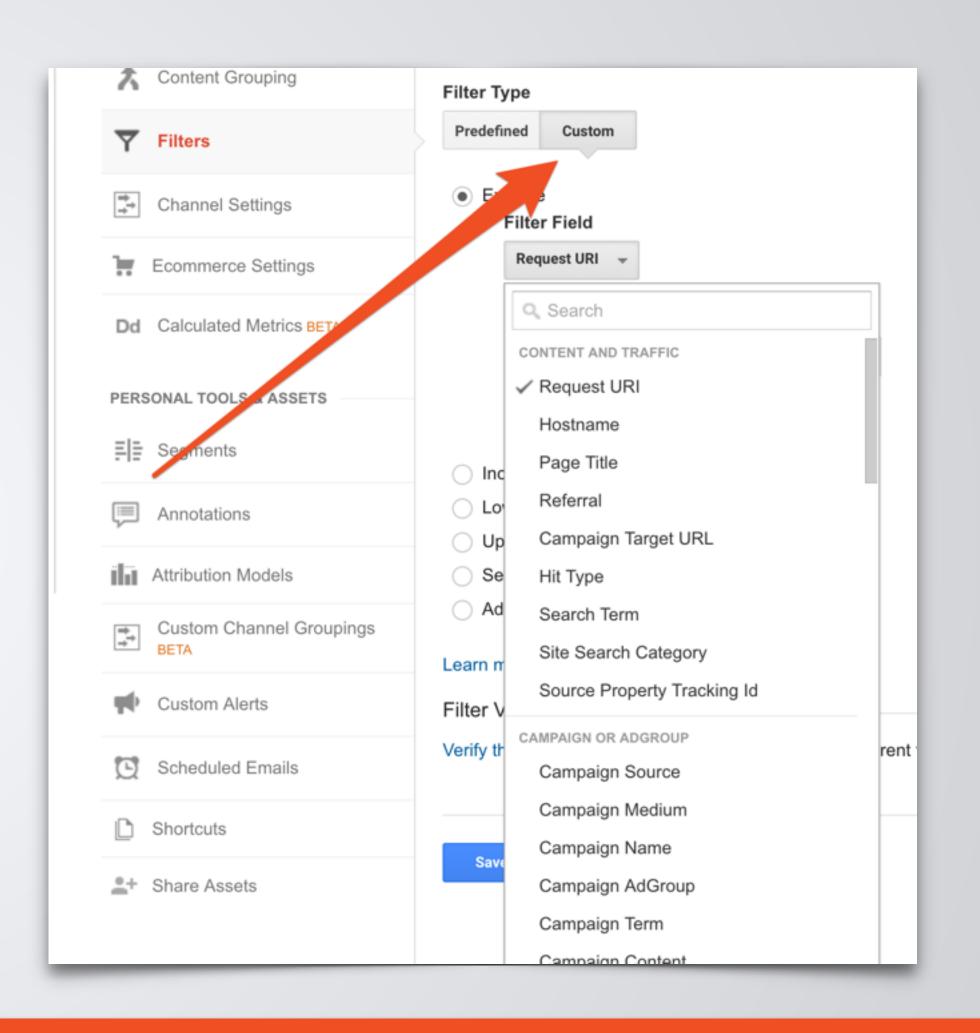

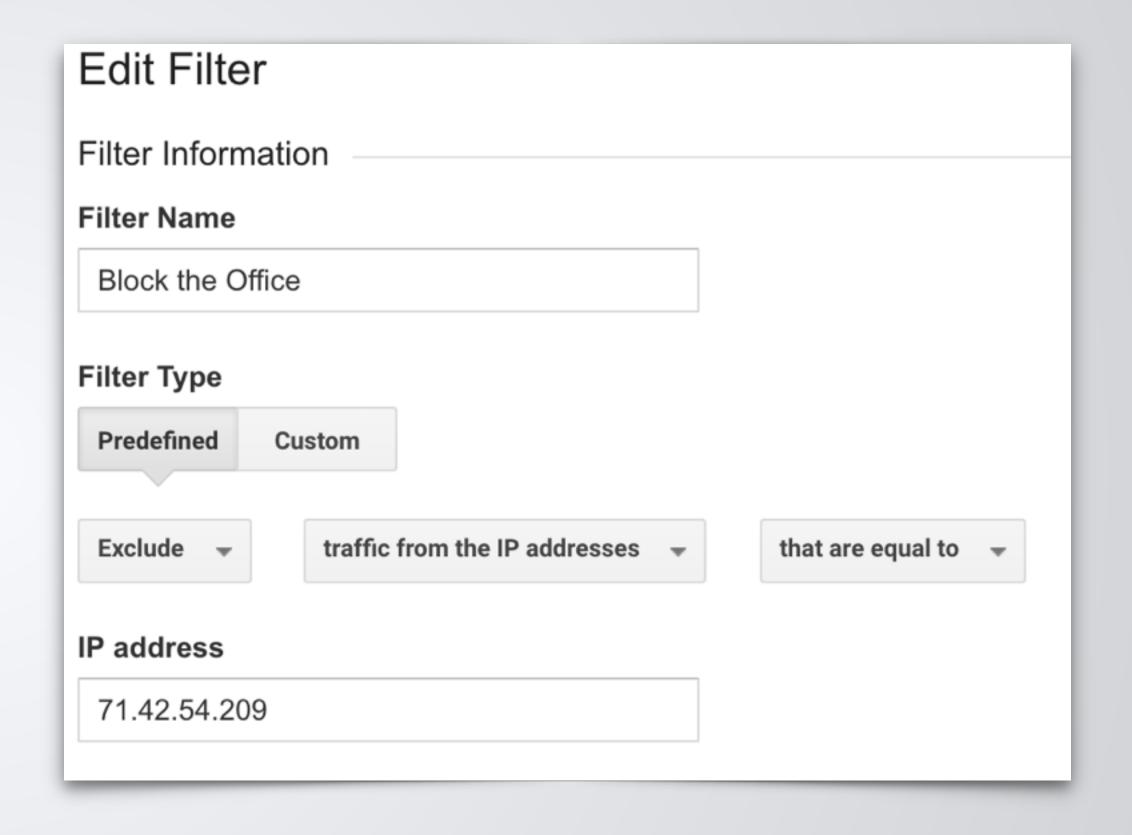

Get Custom!

Go beyond the standard predefined filters and create filters off any dimension of Google Analytics.

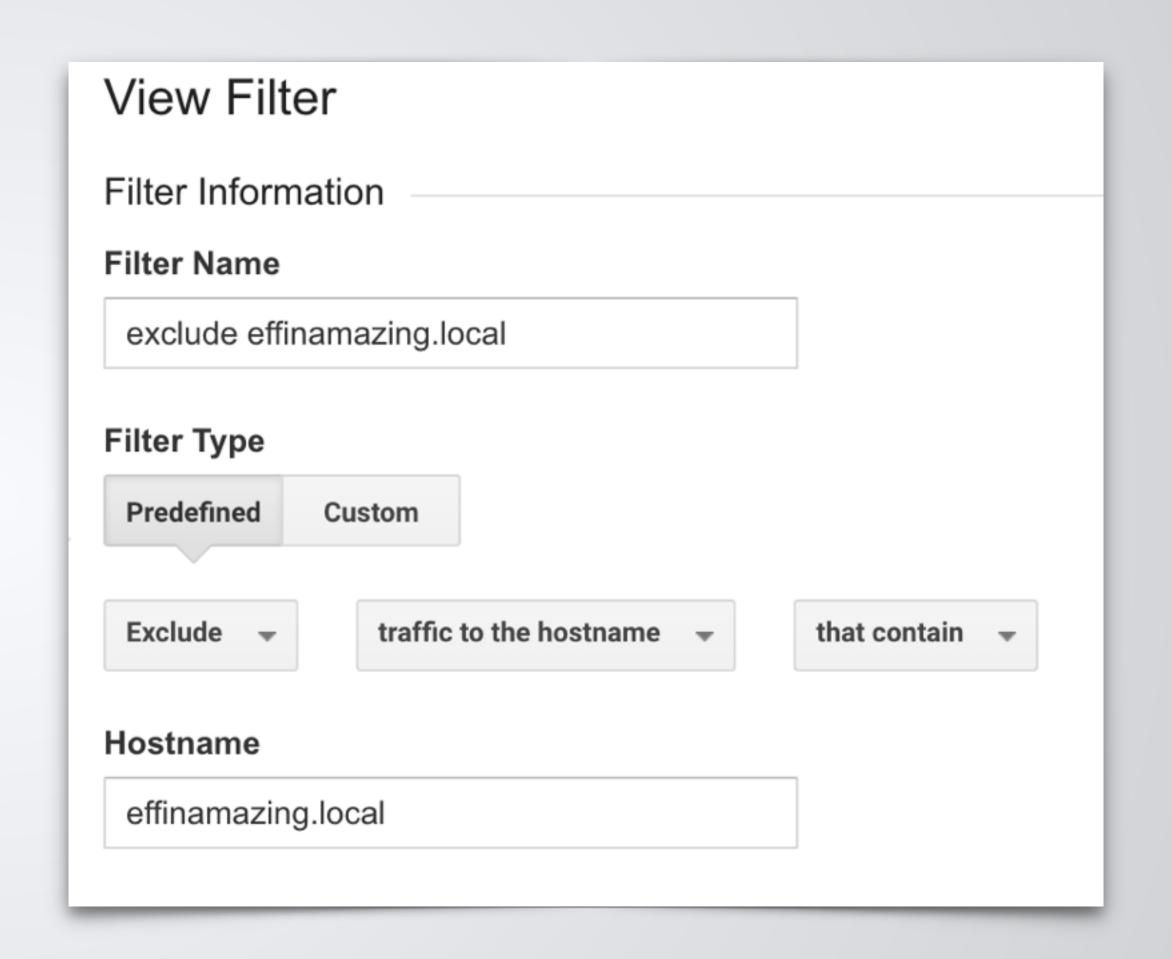

Exclude Internal Traffic

The best converting user on your site is you! Your internal team doesn't act like typical web users and will alter the metrics that are most reported, including users, sessions, and pageviews.

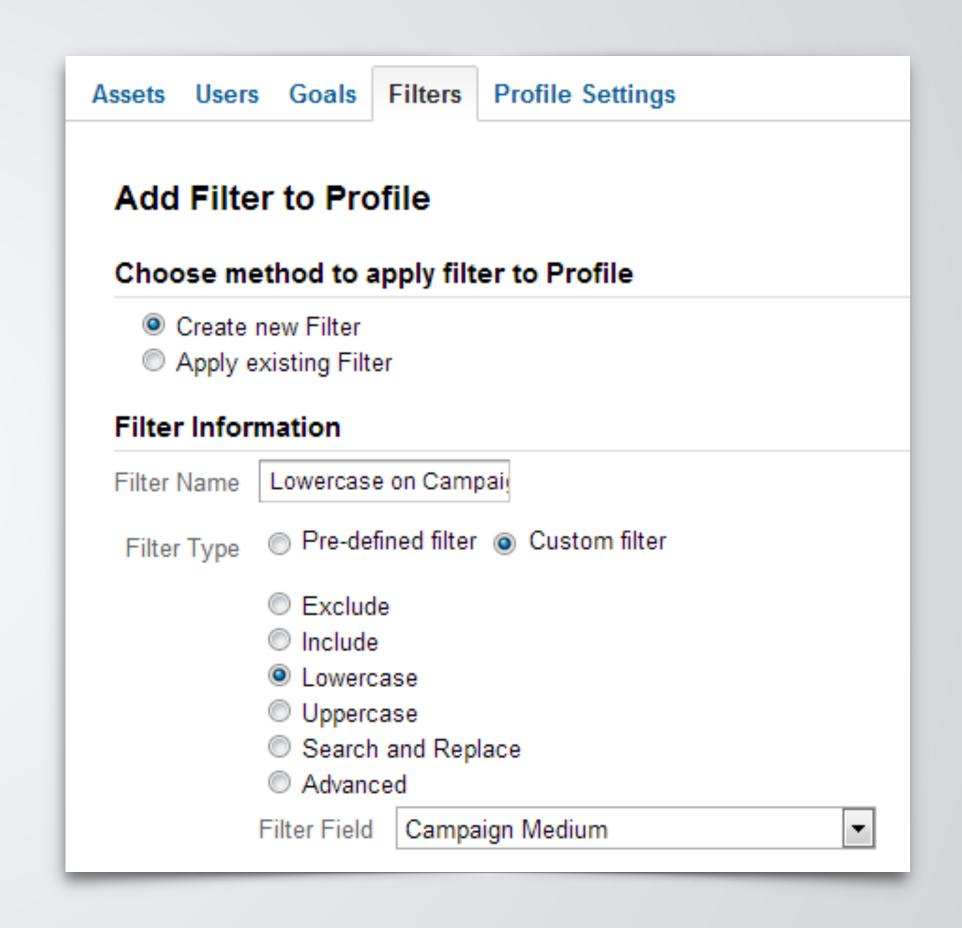

Exclude Development Sites

Have a development site? Exclude traffic going to that hostname.

Lowercase on Campaign Attributes

By default, UTM parameters are case sensitive in GA. Simply add 5 lowercase filters on the UTM Campaign parameters: Campaign Medium, Campaign Source, Campaign Content, Campaign Term and Campaign Name.

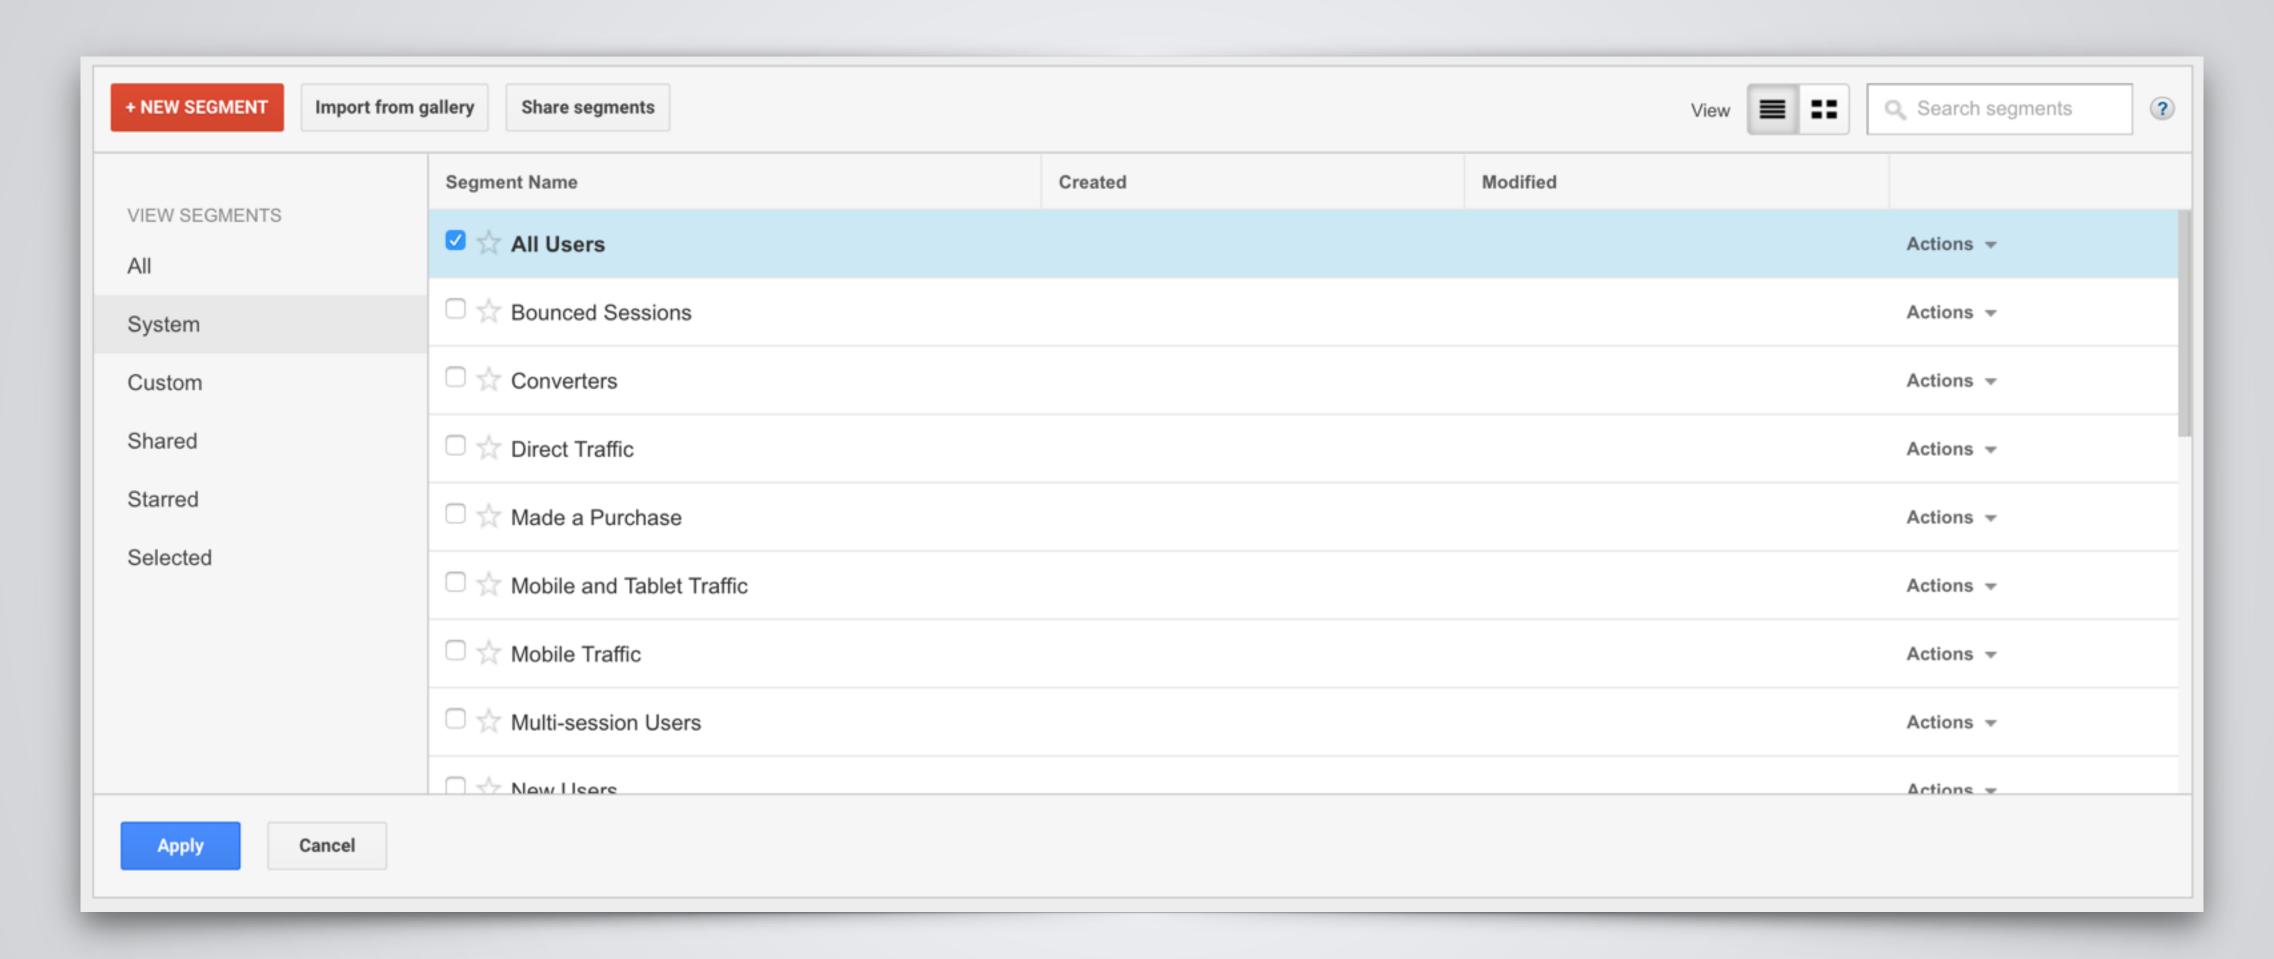

Exclude All Query Parameters
Use filters to make website.com/
order.php?id=1234 and
website.com/order.php?id=4321
show up as just order.php by
excluding the query string.

Filter Infor	rmation		
Filter Name	Exclude All Query Parar		
Filter Type	Pre-defined filter C	Sustom filter	
	 Exclude Include Lowercase Uppercase Search and Replace Advanced 		
	Field A -> Extract A	Request URI	▼ (.*?)\?
	Field B -> Extract B	-	•
	Output To -> Constructor	Request URI	▼ \$A1
	Field A Required	Yes No	
	Field B Required	Yes No	
	Override Output Field	Yes No	
	Case-sensitive		

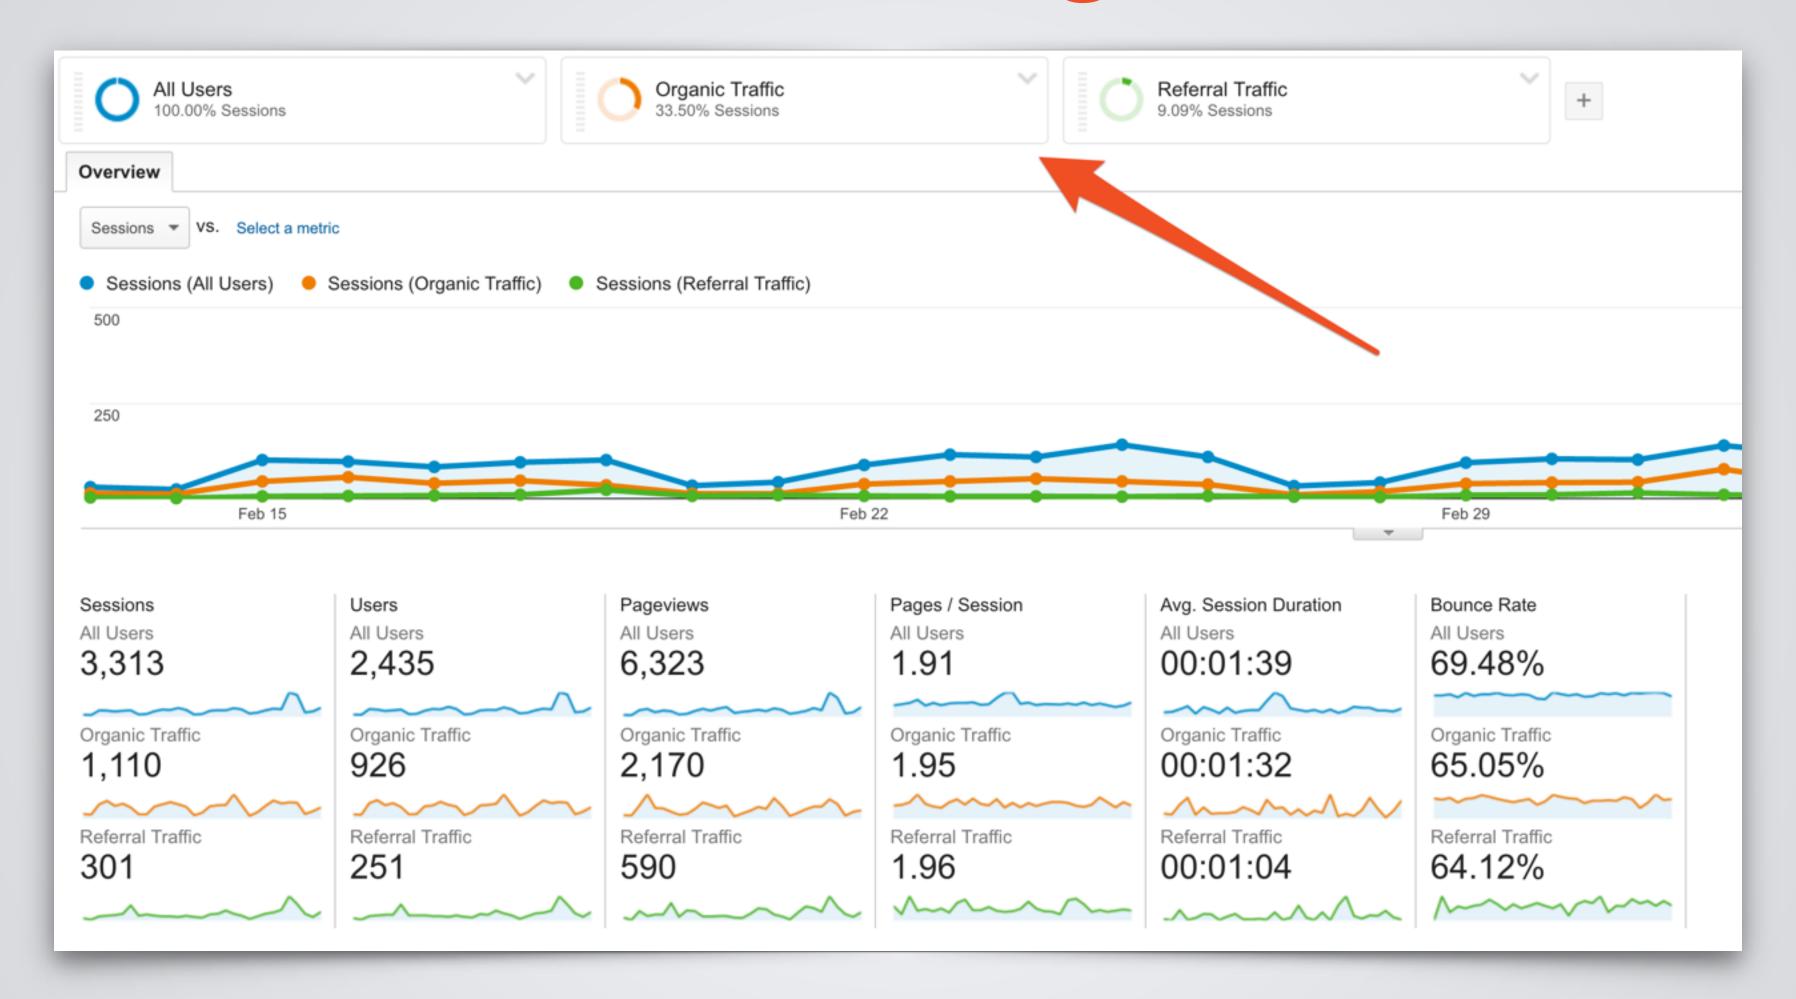

Other Filter Examples

- Include/Exclude Specific Campaign
- Lowercase on Request URI
- Attach Hostname to Request URI
 - To make page.html be domain.com/page.html
- Include Mobile Only
- Include/Exclude Traffic to Specific Subdirectory
 - i.e. /blog/ or /shop/

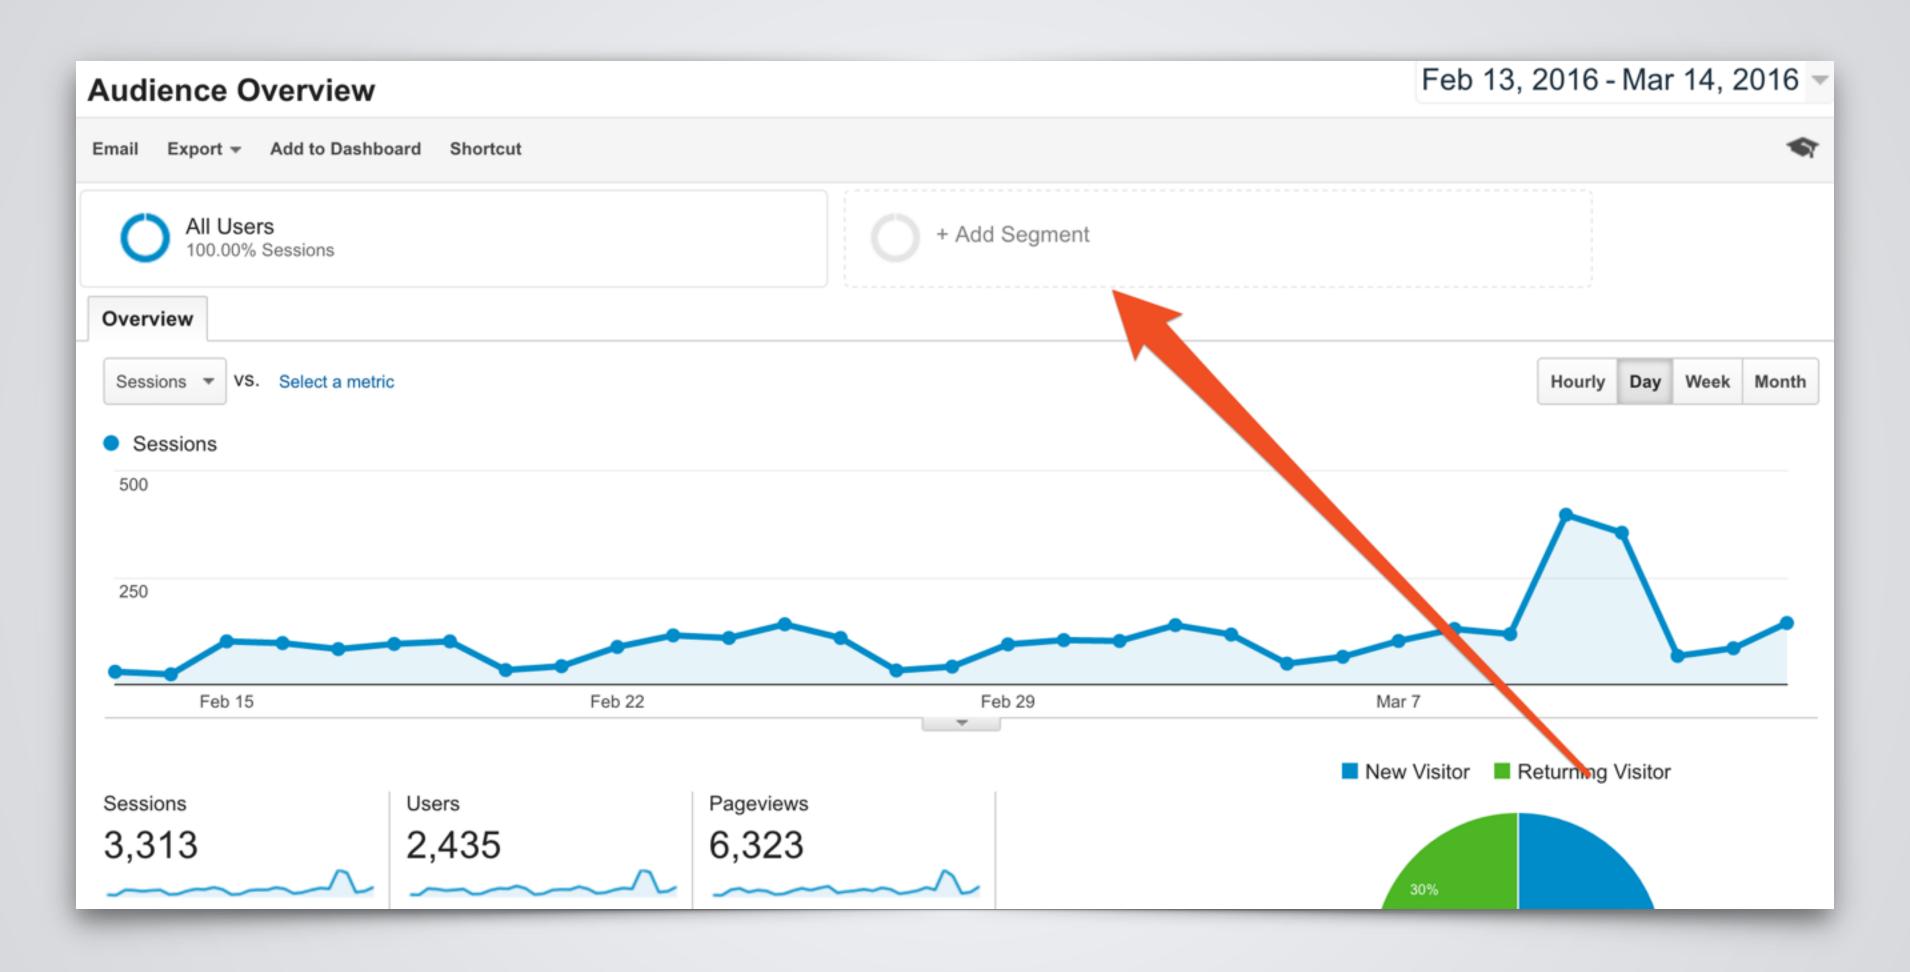

Advanced Segments

Other Cool Things With Advanced Segments

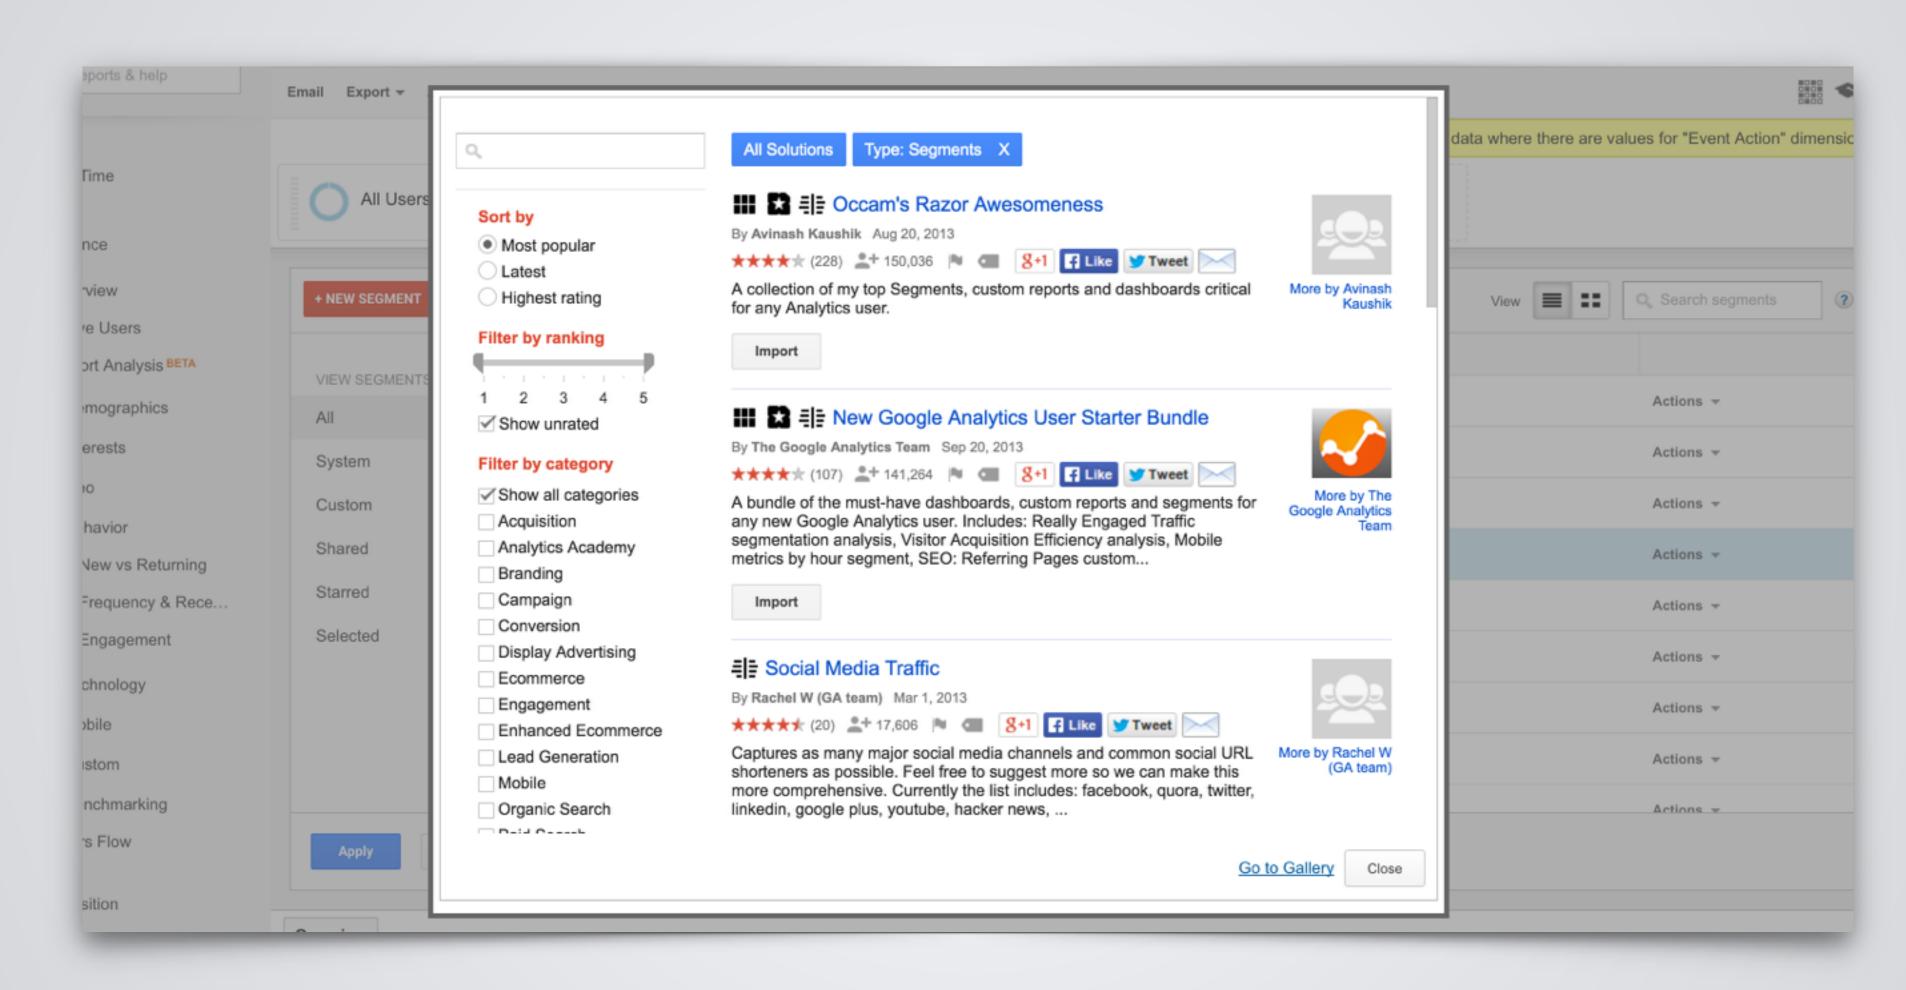

Other Cool Things With Advanced Segments

Advanced Segments Examples

- Everything you use filters for
- Include Mobile Only
- Show traffic from a specific campaign
- Show only traffic from a specific geographical location
- Include/Exclude Traffic to Specific Subdirectory
 - i.e. /blog/ or /shop/

Advanced Segments Gallery

EVENTTRACKING

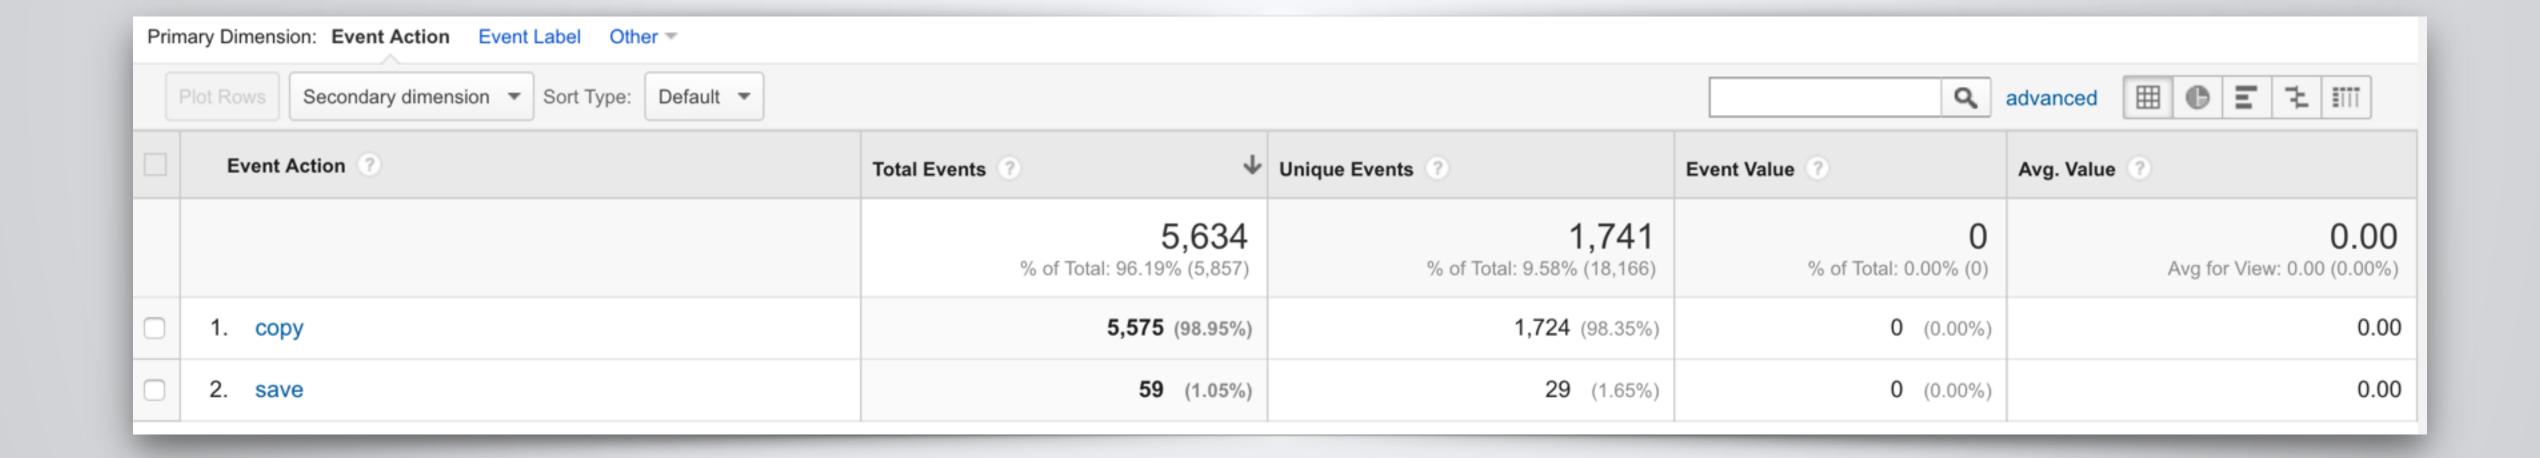

What is Event Tracking?

Events are user interactions with content that can be tracked independently from a web page or a screen load.

Downloads, mobile ad clicks, gadgets, Flash elements, AJAX embedded elements, and video plays are all examples of actions you might want to track as Events.

Event Tracking

Top Events		Event Action	Total Events	% Total Events
Event Category		1. copy	5,575	95.19%
Event Action	•	2. addnew	223	3.81%
Event Label		3. save	59	1.01%

Event Tracking JavaScript

Implementation

ga('send', 'event', [eventCategory], [eventAction], [eventLabel], [eventValue], [fieldsObject]);

Field Name	Value Type	Required	Description
eventCategory	text	yes	Typically the object that was interacted with (e.g. 'Video')
eventAction	text	yes	The type of interaction (e.g. 'play')
eventLabel	text	no	Useful for categorizing events (e.g. 'Fall Campaign')
eventValue	integer	no	A numeric value associated with the event (e.g. 42)

Example

ga('send', 'event', 'Videos', 'play', 'Fall Campaign');

GOALTRACKING

@ChrisEdwardsCE

What is Goal Tracking?

Goals measure how well your site or app fulfills your target objectives. A Goal represents a completed activity, called a conversion, that contributes to the success of your business.

Examples of Goals include making a purchase (for an ecommerce site), completing a game level (for a mobile gaming app), or submitting a contact information form (for a marketing or lead generation site).

Types of Goal Tracking

URL Destination Goals - Tracks visits to a URL.

Visit Duration Goals - How long people stay on your site.

Pages/Visit Goals - Number of pages visited.

Event Goals - Goals based off the firing of an event using event tracking.

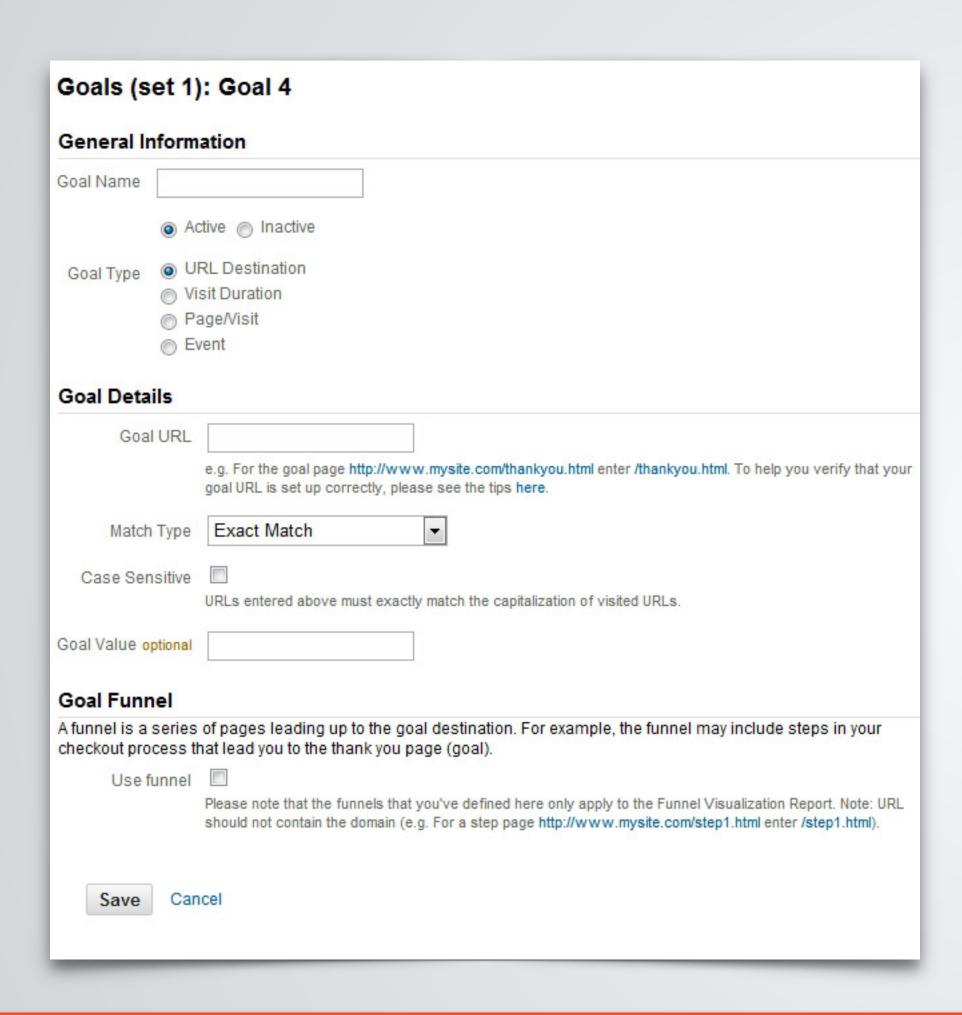

Know Important Metrics!

Leads
Trial signups
Account creations
Newsletter signups
White paper downloads
Ebook downloads

Remember: You're limited to 20 goals total!

Destination Based & Event Based

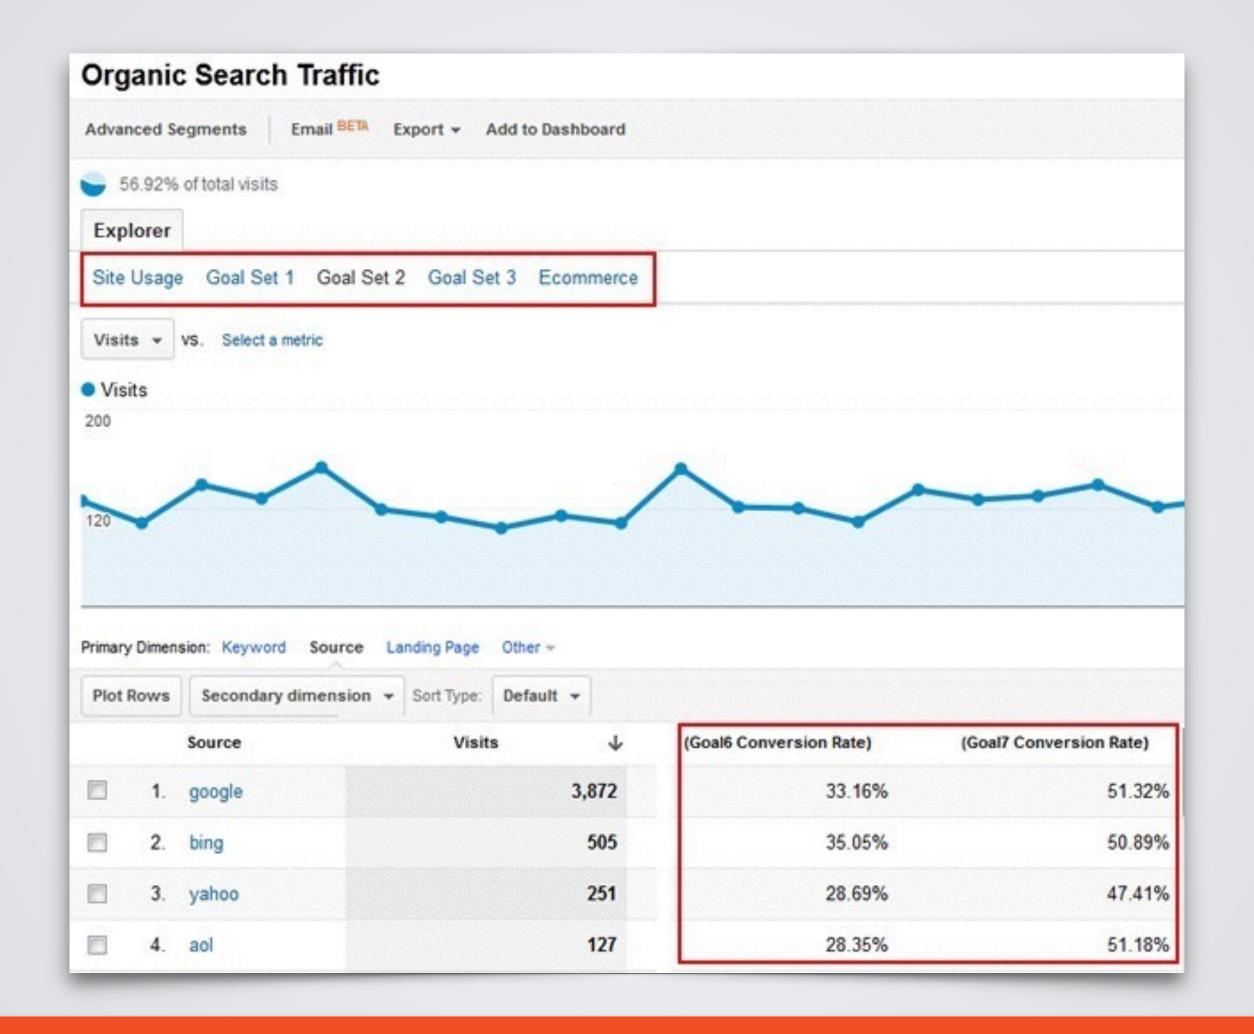

Goal Name	
	Active Inactive
Goal Type	 URL Destination Visit Duration Page/Visit Event
Goal Deta	ails
1. Configure	e a combination of one or more event conditions from the list below
Category	- Select -
Action	- Select -
Label	- Select -
Value [- Select -
2. For an ev	ent that meets the above conditions set the following goal value
Goal Value	Use the actual Event Value Use a constant value

Goal Value

Assign a value for each goal. This should not be your only way of tracking revenue.

Goal values can be useful when looking for the ROI on specific campaigns, referrals, social sources and more.

Conversion Rate

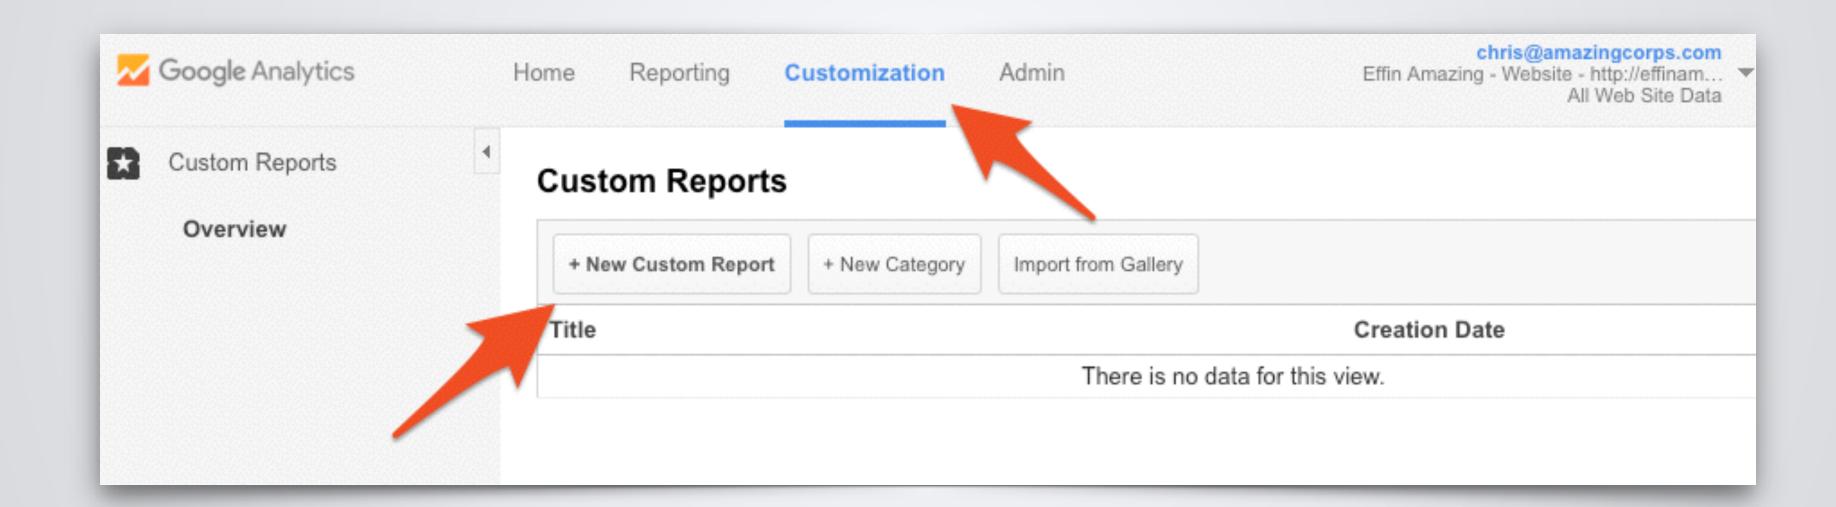

CUSTOM REPORTS & DASHBOARDS

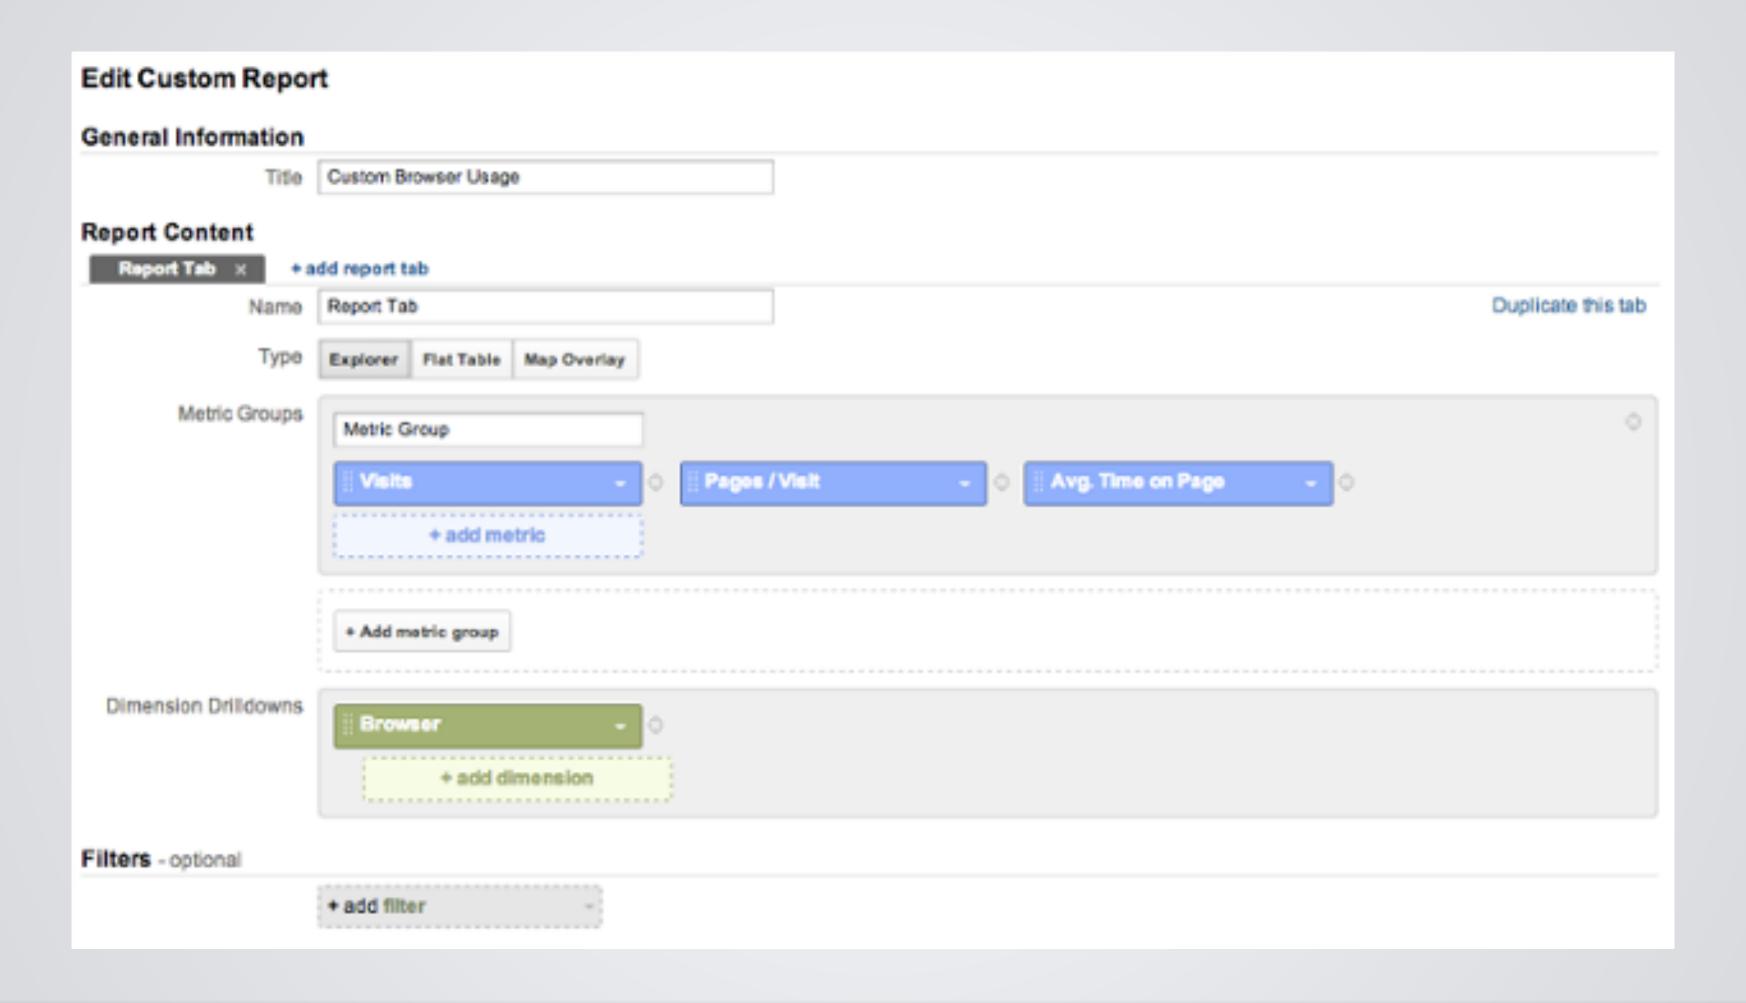

Custom Reports

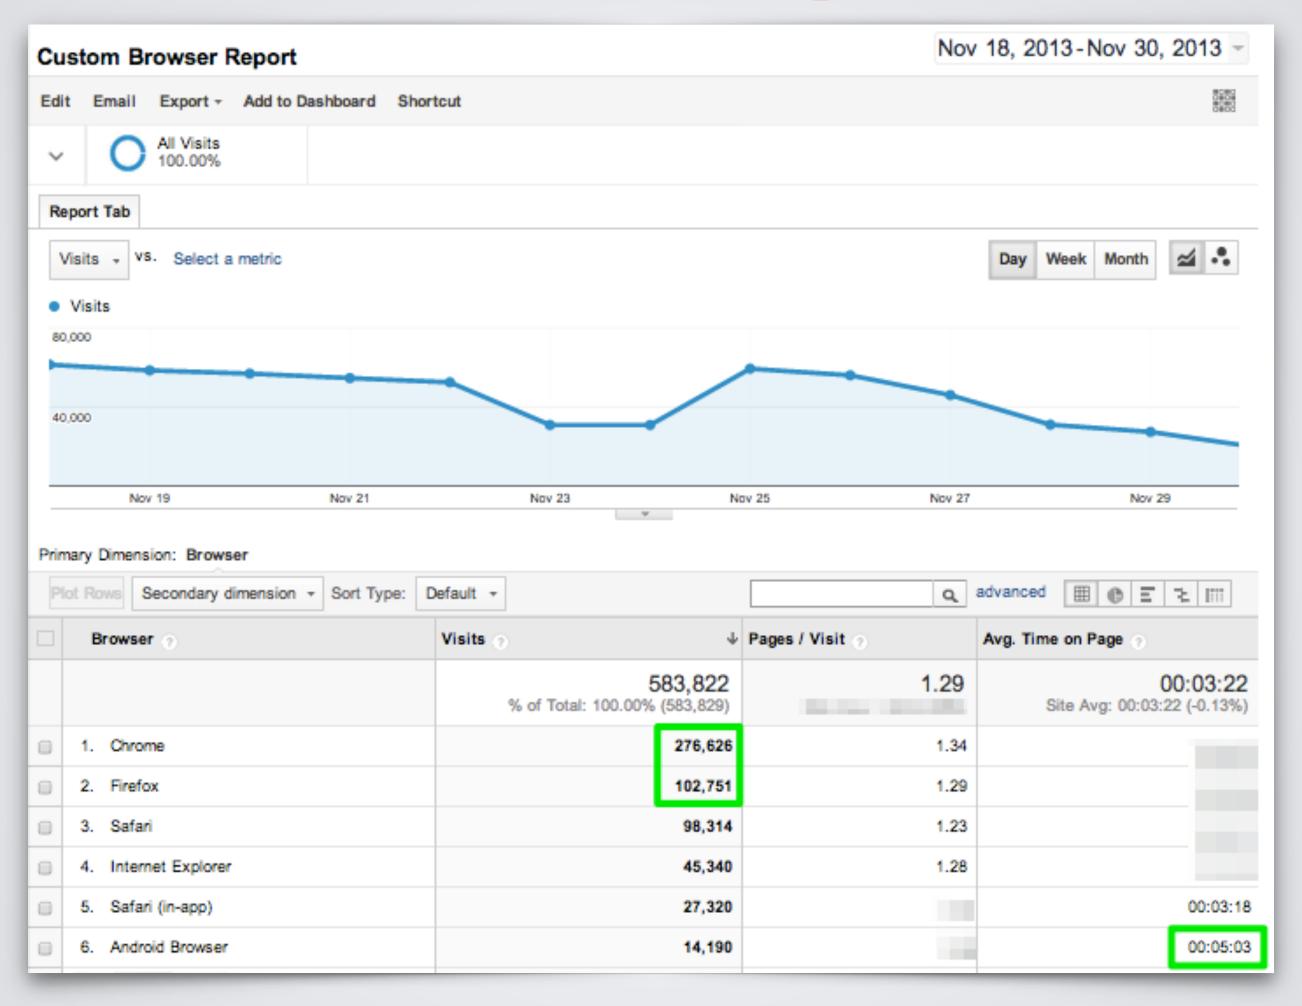

Create custom reports to slide and dice your website analytics data in very interesting ways, based on your unique business goals and needs.

Custom Reports

Custom Reports

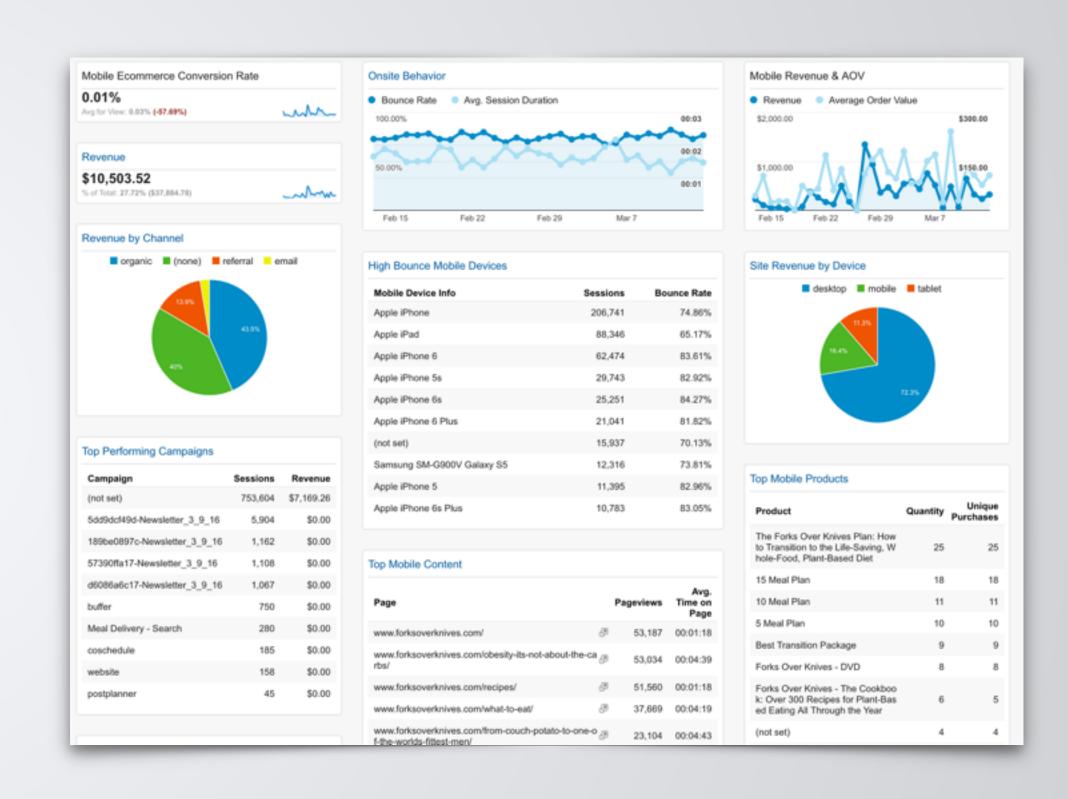

Custom Report Examples

- Browser Report
- Mobile Performance Report
- Hours & Days Report
- Referring Sites Report
- Any Custom Segment You Use Often

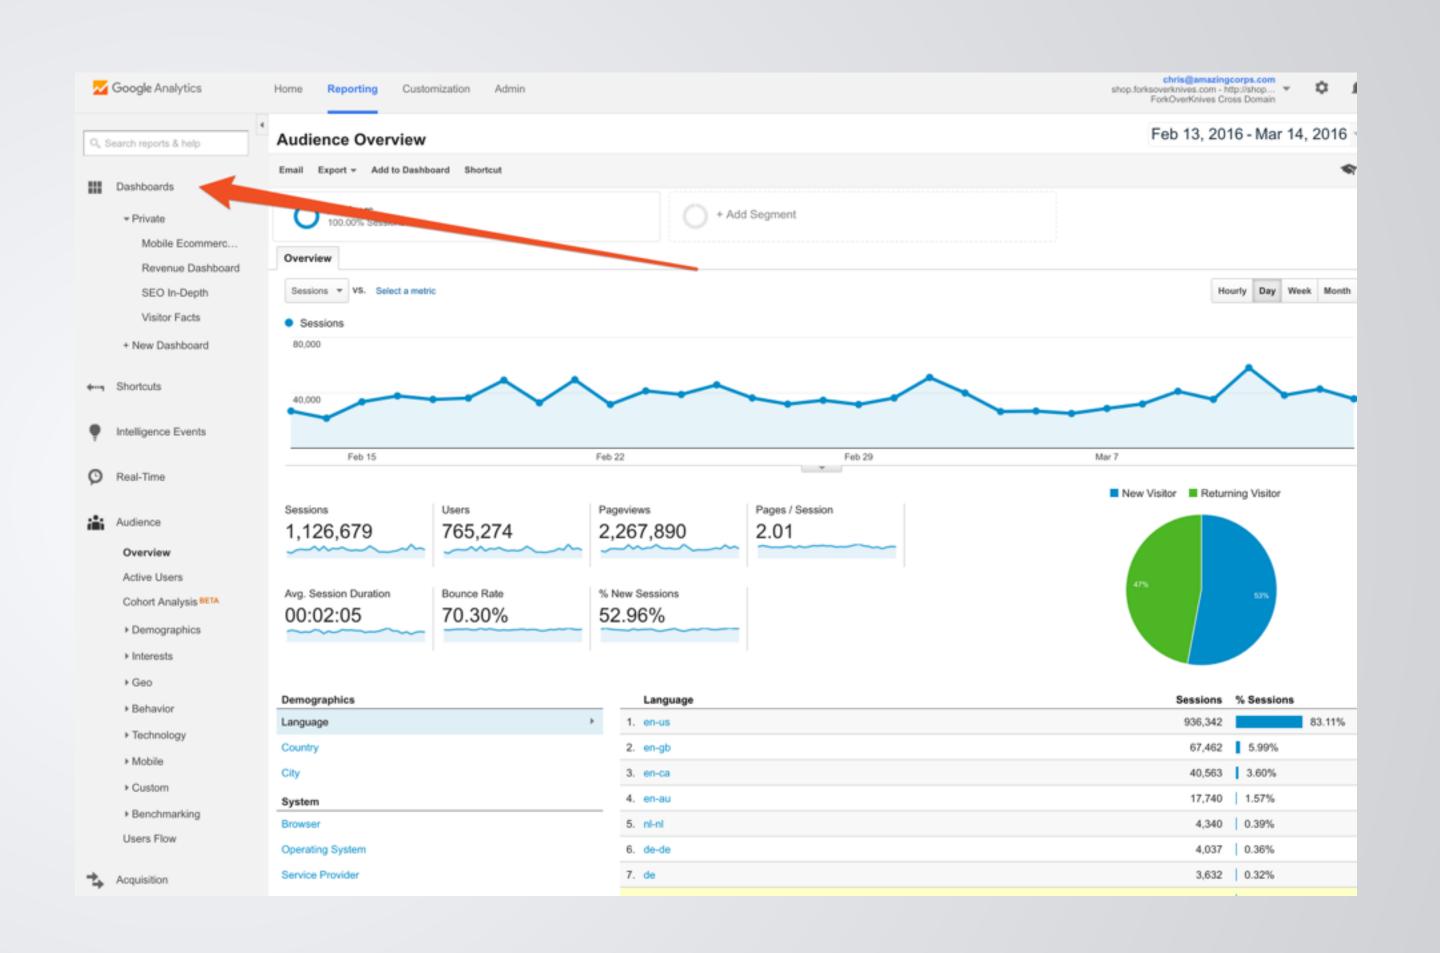

Custom Dashboards

Dashboards are a collection of widgets that give you an overview of the reports and metrics you care about most. Dashboards let you monitor many metrics at once, so you can quickly check the health of your accounts or see correlations between different reports.

Custom Dashboards

To access dashboards, a user needs to navigate to the property view, select the Reporting tab, and then select Dashboards.

Custom Dashboard Examples

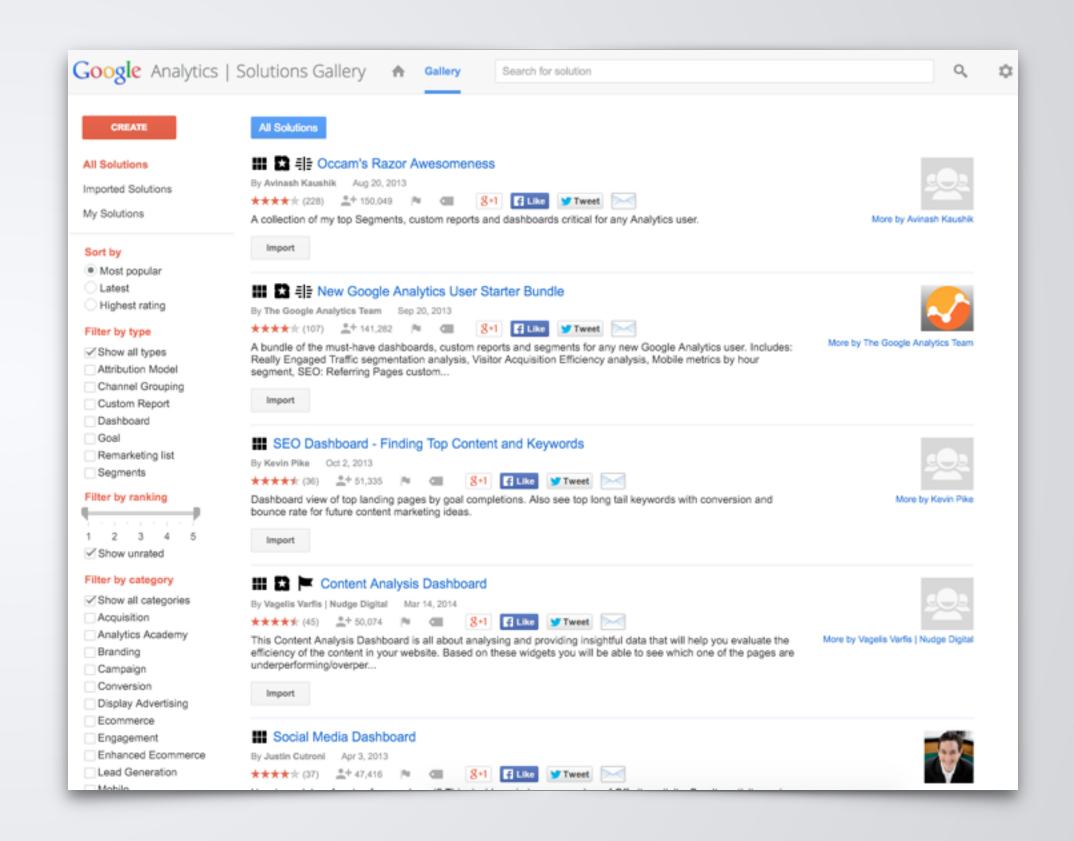

- Goals & Conversions
- Different SEO Dashboards
- Social Media Dashboard
- Visitor Facts Dashboard
- Ecommerce Dashboard
- Mobile Dashboard

Google Analytics Solutions Gallery

TRACKING ROI WITH UTIMS

Know What Drove Traffic!

Without UTMs, you can already see the referral source of your traffic, but you do not know which campaign, which tweet, which email actually drove the traffic.

UTMs allow you to know exactly what is working and where to spend more marketing dollars.

DEFINITION

A UTM (Urchin Tracking Module) is a group of tags appended to the end of a URL. When these tags are appended, it allows you track the specifics of your source.

EXAMPLE

http://effinamazing.com/? utm_source=google&utm_medium=cpc&utm_campaign=product&utm_ content=mixpanel&utm_term=segmentation

Campaign Name: product

Campaign Content: mixpanel

http://effinamazing.com/? utm_source=google&utm_medium=cpc&utm_campaign=product&utm_ content=mixpanel&utm_term=segmentation

LET'S BREAK IT DOWN

Website URL: http://effinamazing.com

Campaign Source: google

Campaign Medium: cpc

Campaign Name: product

Campaign Content: mixpanel

Campaign Source

?utm_source=google

This is the referrer of the traffic to your page. This is normally the website, platform or tool you posted your link on.

EXAMPLES

Google Facebook Twitter

Mailchimp Outbrain Reddit

Campaign Medium

?utm_medium=cpc

This is the marketing medium that referred the traffic. Unlike the source, it tracks the type of traffic.

EXAMPLES

cpc banner-ad email

post tweet article-link

Campaign Name

?utm_campaign=product

This acts as the identifier for a specific campaign, product or offering that you're driving traffic to.

EXAMPLES

spring-sale social10152015 product

your promo code (25off)

Campaign Content

?utm_content=mixpanel

This is an optional part of a UTM, but allows you to easily differentiate between ads on the same channel. Good for A/B testing ad copy.

EXAMPLES

content-a content-b

Campaign Term

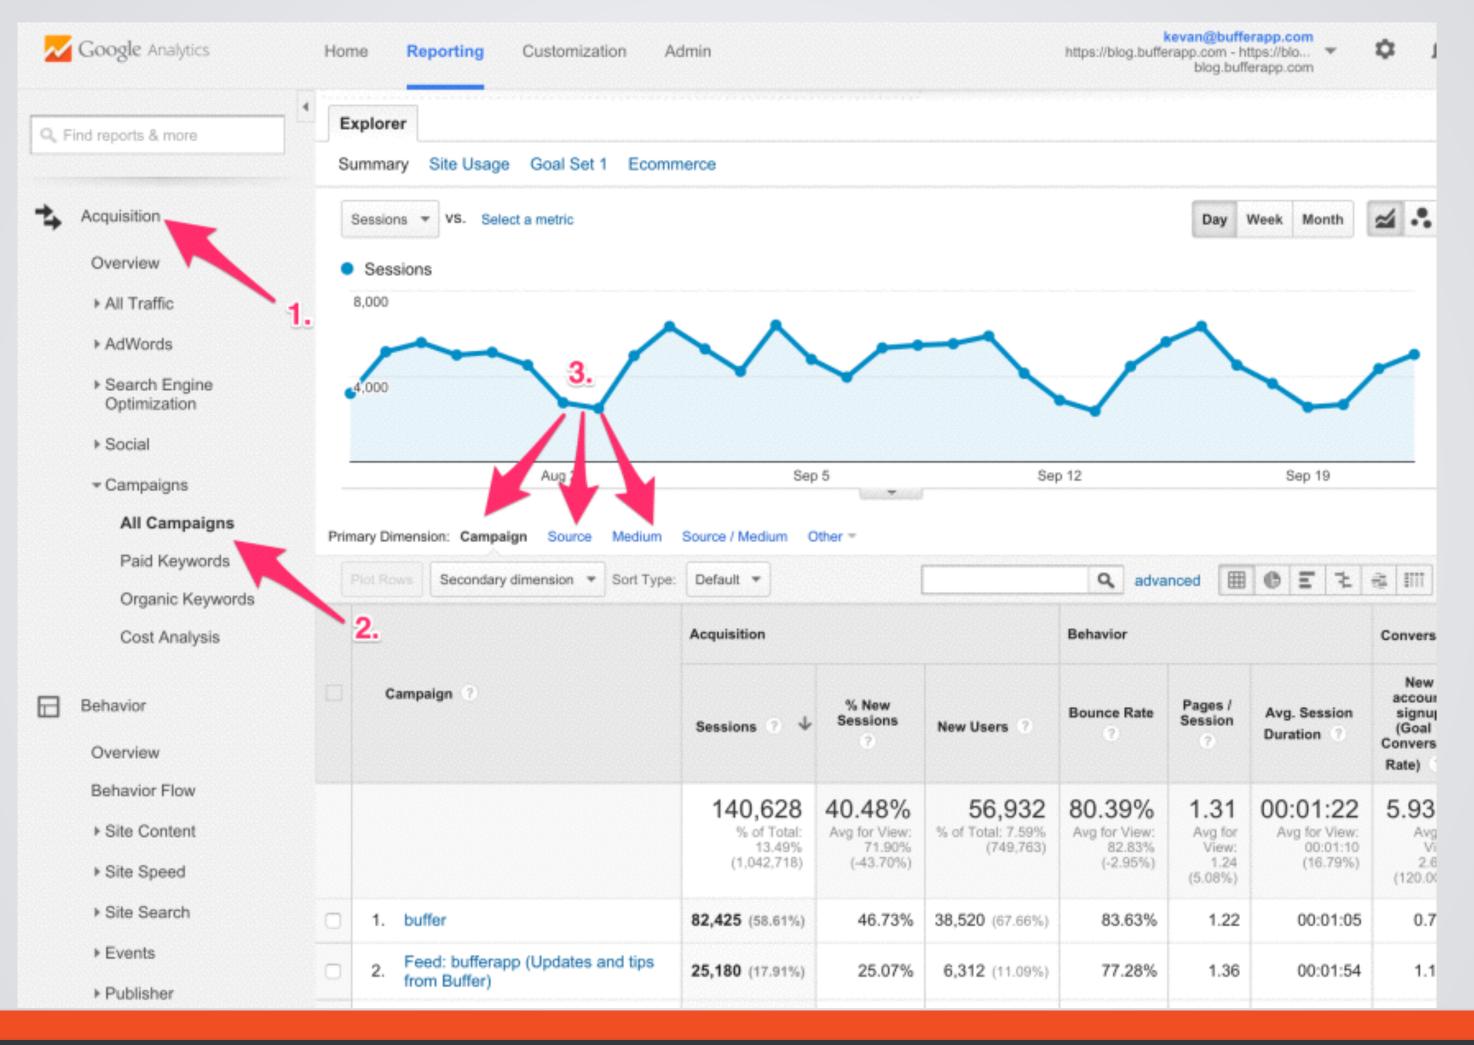

?utm_term=segmentation

This is also an optional part of a UTM, but allows you to easily differentiate between different ad keywords.

EXAMPLES

Your Key Word

See Campaign Info in Google Analytics

Wow, Amazing! Now, how the heck to I create these "UTMs" for my campaigns?

Online UTM Builder

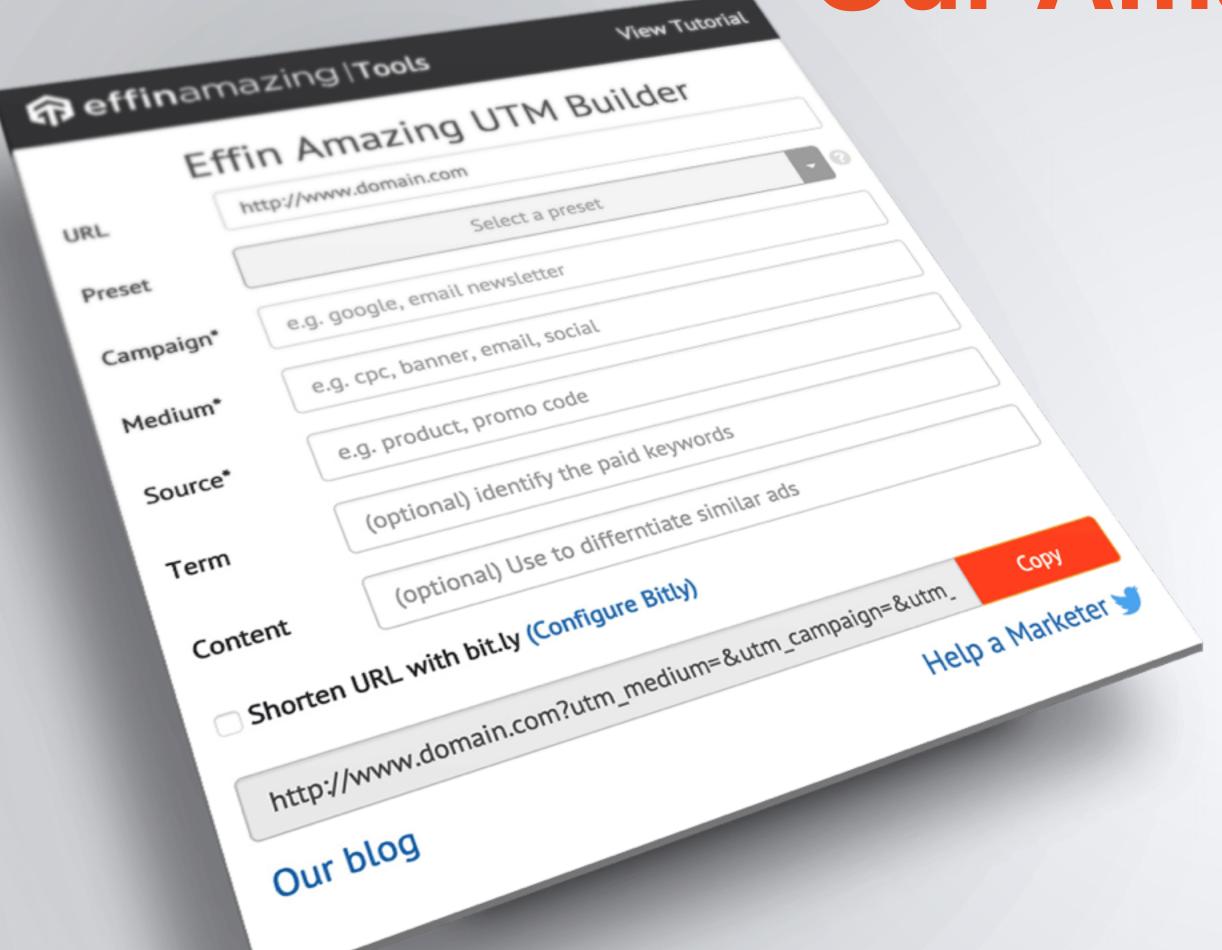

Just do a Google search for an online UTM builder.

- or -

Use Effin Amazing's online builder at http://effinamazing.com/ under the Resources menu item.

Our Amazing Chrome Extension

We have created an amazing UTM builder as a Chrome extension. This builder includes saved presets and bit.ly integration.

Get it at http://effinamazing.com/utm

Stay tuned after the presentation for a quick demo

URL Shorteners

UTMs are long and ugly! Utilize URL shorteners to create easier to view URLs and shorter to type URLs.

Two popular shortener services:

http://goo.gl

http://bit.ly
